

APPLICATION FOR SITE IMPROVEMENTS OR RENOVATION

Only a Member can make application for site improvements or renovation. Contracts made with parties other than TTT are solely between the Member and the Contractor. The Association is not responsible for compliance or completion.

Printed Name _____ Date: _____ Site # _____

Address _____ City _____

State _____ Zip Code _____ Phone _____

Describe your project: Be specific and include a list of materials to be used, choice of colors, location of project, proximity to boundary lines, drawings, all necessary forms and any other information that may be helpful. Attachments may be used if more space is needed.

Four horizontal lines for project description.

I understand that approval of this application will grant permission to use the plans as submitted and any variance in construction/installation from the application will be grounds for a "Cease and Desist" order. I further understand that the construction/installation of the project and its structural integrity are entirely my responsibility and not the responsibility of Tahoe Timber Trails Association. I will notify the TTT Office of any expected outside deliveries of construction materials ordered by me or my contractor at least 1 day before the expected arrival, and when my project is completed. This application will expire one year from the date of approval.

I understand the only acceptable colors are shades of brown/brown hues or clear coating whether by paint or stains. Examples are available at the Office for paint, stains, manufactured stone, gravel, decorative stone or other materials that may be used on my project. I understand that any deviation from the approved colors, materials, types or styles will be grounds for denial of the final inspection and approval of my project. I further understand that if final approval is denied I may be required to re-paint the project or remove any manufactured stone, gravel, decorative stone or other materials at my expense.
