GENERAL QUESTIONS

WHY ARE WE DOING THIS?

This is a critical intervention to reduce harm from the spread of the coronavirus in our community. This is a mandatory order enforceable by a fine or jail.

The health officers across northern California jurisdictions and at the state level are responding to quickly mounting cases and serious illnesses across the region.

Now is the time to do everything we can to prevent the situation from getting much worse in a matter of days or weeks. Every hour counts. We need and appreciate the cooperation of everyone who lives and works in Nevada County to act immediately.

While this shelter-in-place order may feel alarming, it is a necessary step to prevent a worsening situation. We have already seen the impact of this order in our communities. The patterns of the virus around the world, and in our own state, tell us that moving right now to maximize social distancing and restrict people gathering is the best way to fight the virus and save lives.

We know that there are a lot of questions and concerns. This is a major change being taken to protect public health. Together, we will get through this, and our community's health will be protected.

HOW LONG WILL WE STAY HOME?

The Stay-at-Home order issued from the California State Health Officer went into effect on Saturday, March 21, 2020 at 12:01 am. On Tuesday, April 15, 2020 Nevada County's Public Health Officer issued a local Stay-at-Home Order. The two orders are very similar, but having a local order allows Nevada County to provide clarifications to questions from the public regarding the state's Order. This Order is in effect until rescinded.

We want to be sure the Order is in place for only as long as necessary, and the Health Officer will be closely monitoring the situation every day in order to determine what adjustments make sense.
