

Tahoe Timber Trails is closed for the winter season.

Memberships for sale will be posted by the end of May or early June 2023. All memberships for sale will require an inspection, or reinspection if previously listed, by the Architectural Review Committee before being approved for sale. All prospective buyers must submit an application, complete a background check and attend the new member orientation before the membership transfer and transaction process is completed.

As the inspections are completed by volunteers, this process may take several days to a few weeks to complete. While we understand the enthusiasm to go camping, your patience is appreciated as our volunteers' time is limited and our staff is small.

Please also note: Advertisements for a membership with TTT on any media other than the Tahoe Timber Trails website, does not confirm that it has been approved for sale.

We look forward to meeting you next season!
